EXPERIENCE

SOFTWARE ENGINEER VOLUNTEER | PRIME ESPORTS INC.   **01/2022 - Present**
- Utilized Next.JS feature of static-generation to improve performance and SEO.
- Contributed to the in-house UI library and created reusable React components to assist in scalability.
- Utilized GraphQL in developing tournament sign-up components.

SOFTWARE ENGINEER FELLOW | GENERAL ASSEMBLY   **09/2021 - 12/2021**
- Designed and deployed fully responsive front end web applications using HTML, CSS, JavaScript, React, and third-party API integrations.
- Maintained Git workflow for applications by using branches for new features. Reviewed 5-7 pull requests per week to ensure code quality and consistency as part of a 4-person team.
- Learned new technical skills and developed full-stack applications and Restful APIs with full CRUD functionality using MERN stack (MongoDB, Express, React, Node.JS) biweekly.

ACCOUNTANT | HIGHRIDGE COSTA   **12/2017 - 08/2021**
- Utilized Microsoft Excel and OneDrive by implementing a cloud-based accounting review process increasing productivity by 50%.
- Communicated with management companies, auditors, and other outside entities to answer questions and ensure audits are finalized on time.
- Identified and resolved journal entry discrepancies for +25 properties. Collaborated with various departmental teams in confirming entries to ensure accurate financial statements each month.

PROJECTS

TRAVELGRAM
Tech Stack: MongoDB, Express, React, Node
- A full-stack social media application for users to share their travel experiences.
- Developed backend with endpoints for users and posts using Node.js and Express.
- Utilized JSON Web Tokens and local storage to store encrypted user information client-side and bcrypt server side.

QUIZJS
Tech Stack: Firebase, React, Material UI
- A full-stack quiz application to test user's knowledge in Javascript, React, and HTML/CSS.
- Utilized Firebase for user authentication and as a database.
- Designed components and layout with Material UI to enable a seamless user-experience.

STUDIO GHIBLI DATABASE
Tech Stack: React, Bootstrap
- A web application to search, view, and save Studio Ghibli films.
- Implemented Bootstrap to create a responsive application for mobile and desktop views.
- Utilized a third-party API to fetch Studio Ghibli film data.
